DAY 1: Arrival. Overnight stay at ICEHOTEL.

DAY 2: From Jukkasjärvi you go south on the E45, through Swedish Laplands endless forests and expanses. On todays trip you also come through Jokkmokk, which invites you to stay for a while with its many art and handicraft stores. Todays goal is Arvidsjaur.

DAY 3: From Arvidsjaur, a charming town deep in the woods of Swedish Lapland, you continue on towards Arjeplog. Here the landscape changes, och the woods switch place with the treeless mountains. You cross the polar circle, and continue on towards Norway and the Atlantic coast.

DAY 4: At 10.15 the ferries leave from Bodö (if a different departure time is wanted, you can rebook this on the evening before. Other departures are at 06.00 and 15.00). You travel over the wide Vestfjord to Moskenes which is part of the Lofoten island group (arrival ca. 13.30). You travel via Leknes and Kabelvåg to Svolvær. A visit to the village Henningsvaer is recommended. From Fiskebol you travel with ferry to Vesterålen. This ferry cannot be booked in advance, and has to be payed at location (125 NOK for one car with 2 passengers). From Melbu (25 min travel time) you only have a couple more kilometers to the "cradle of the Hurtigruten", Stokmarknes. Here you can visit the Hurtigruten Museum.

DAY 5: From Stokmarknes your trip continues on to Sund in Sortland. From here you can go directly to Harstad, but a detour to the island of Andöya is highly recommended. The west coast with the beautiful fishing village Bleik is a gem among the many fascinating nature experiences that can be found on Lofoten/Vesterålen. From Andenes you travel to the biggest of the islands, Hinnöya. Todays goal is Harstad, the cultural and scientific centrum of the region.

DAY 6: From Harstad the trip takes you to the Ofotfjord, and from there into the mountains. Swedens most beautiful panoramic road goes via Torne Träsk and Europes oldest national park, Abisko, to Kiruna and ICEHOTEL in Jukkasjärvi.
